

Think for a moment

If I am not able to express myself or convince you about something, it verily doesn't mean I am wrong or if someone for some reason is unable to unfold a few things in their minds, once again, it does not imply that the subject is useless or variably baseless. Believe me, The Almighty has annihilated an inexplicable form of darkness from my wisdom, so many a things that I wish say or write is strongly backed by and aura of immaculate truth. Here, I mention a few lines from that bound faith and supreme sayings with an electrified depth. I would be highly grateful if you could spend some time reading it.

A deer remains ignorant about the precious musk present in its navel, fish are unaware of the pearls hidden in their stomach, similarly humans restrict their knowledge about the precious gift hiding in our heart that is wisdom. When a man roots to animalistic tendencies, his ears, eyes do not increase in size on the contrary when he acquires angelistic forms his organs remain the same, then what is it that gets constructed or destructed within us? It is the Wisdom (Qalb) which is important. Unfortunately, our Wisdom is covered with a veneer of darkness, ignorance, deceptions and laziness, because we neglected the gift. People have started working towards the materialistic world so that they appear outwardly beautiful, but if we look at the elemental form of the humans, I would not hesitate to say that they are falling at a rapid rate, all for their tremendous negligence and lack of Prophetic or pious guidance. Remember, the human mind, the eyes, tongue and all the activities would not change its course until the wisdom of the heart is not transformed or dealt with, which is exactly why the Prophets were sent i.e. transforming people from the roots. Worldly success is not the real success rather it's the plastic or artificial form of self centred happiness; the real success radiates from inside. It is the mind's scientific aspect that has developed a lot, now we must work to develop the spiritual aspect of it.

If we tell a baby in the mother's womb about the existence of the present world he or she would certainly disagree and respond saying, there is no such sun or moon or rain, similarly a fish in the river is unaware of the dire consequences if it jumps out of water. Both dwell in their darkness of ignorance, but in reality it all exists. So, I am here to inform you about the existence of life after death, Hell and Heaven, Day of Judgement which are yet to come, they all really exists, I have discovered them in my course. Once you by attaining enlightenment you will too discover the hidden truth and eventually will request others to strive for the secret of enlightenment, so that today's worldly pleasures do not transform into tomorrows disastrous nightmares due to the ignorance surrounding the mind and wisdom.

We are born in this world with a pure and a clean heart (wisdom) which is why the new born baby is flawless by nature even though so thoroughly ignorant. But, long since we started talking, looking, observing, thinking and fulfilling our desires, the beauty has gradually started to corrode or is merely fading. The idea of writing this article is the need to gather perfect information so that we clearly justify how wrong or right was our 'source of information'. The question that crops up- what was our prime source of information till date, was it solely our parents, relatives, neighbours, friends, school, college or media and television. Can we justify if all the information we have gathered with time is perfect or simply flawless?

Well, we need to extract these answers from the Prophetic guidance, as they were the ones sent by Allaah to this world to guide all of mankind. We have to analyze and gather perfect information that helps to sustain our wisdoms purity, neatness and cleanness. And, when facing death we should contentedly leave this world with that sense of purity in us.

A pure soul shall enter Paradise and all evil souls shall get entangled in the troubles and pains of Hell.

It would be an honour, if all those imparting time would learn and practice to the best of their ability from the following flow chart. You would notice that the whole body is the "heart" which is why the smallest amount of good deed done makes us happy and slightest amount of evil done drills an irreversible pain and dissatisfaction. Thus as all the senses are deeply connected to the emotions of the heart it is of prime importance to keenly develop self control to all senses.

Heart Chart

First of all download the heart chart and keep it handy. You can begin by following the arrow descending from the centre of the first box (Green arrow), there are 7 consecutive bullets further landing into the middle of the Heart diagram. This is the World, there are various situations what comes from the Almighty Allaah as a Test (Azmaish) or as a punishment according to our Deeds and Actions (Good or Bad), such as happiness, sorrow, wealth or poverty, profit or loss, fitness or sickness etc. It lands up directly to our material world and heart. If we have the qualities shown in the middle of the heart chart, such as Enlightenment, Peace, Faith, Fear of Allaah, Dua and Mercy etc., then will we be able to manage whatever situations comes from Allaah, otherwise, if not then Nafs, Satan, Desires (Shown at the lower end three bullets) will trigger evils in to the heart directly and create chaos in the heart, this chaos and evil can be ungratefulness, wine, women, theft, bribery, suicide and murder etc, it can be anything. The devil will take the heart towards these evils due to lack of good qualities in the heart. Whatever enters the heart, it spreads all over the Body. If the heart is sinking with bad qualities and the performance is bad then Allaah will multiply his or her problems from the Sky and life will be miserable, and in this situation, if death strikes the person will enter the fire of Hell.

As I have already mentioned an Animal cannot enter in the Paradise. Something needs to be done, start by following the three bullets on the right hand side of the heart diagram such as Fear of Allaah, Zikr (Remembrance) of Allaah and worldly responsibilities, send them to the heart to recharge the heart (written qualities).

Perform according to the three left bullet points i.e. Sunnah, Sayings and Manners and Etiquette of Prophet (Peace be upon him). Once Allaah sees that the Divine qualities of the heart is present and his or her performance is also good (Left & Right Bullets) then He will send His Enormous Blessings, help, happiness and comforts to our material world and the heart. And if Death comes He will reward the person His Kingdom of Paradise with His Blessings.

By seeing all the bounties the Devil will be annoyed, he does not want Allaah's Blessings to land, he will attack you from all the different directions (shown in the circled form), he will try to destroy us in various ways, for example, if one is having too much money he (devil) will trigger luxury to the heart so that Allaah's given money can be used in Women and Wine by neglecting the poor and orphan. If the person is influential or has political power he (Devil) will try to trigger proudness to the heart (Allaah dislike it and is reserved for Him alone), the Devil will try to influence the heart in a manner that the Wrath of Allaah fails to fall in life.

The green circled diagram of the heart where the environment is surrounding it is important for the heart. Qualities of the heart grow according to the environment; if it is good, good qualities develop, if it is bad then certainly evil qualities develop automatically. Right company (Pious people), environment of Mosque, loneliness and at times isolated places are the best environment for the Heart.

We need to IDENTIFY OUR DESTRUCTIONS AND RESPONSIBILITIES first and then SIMULTANEOUSLY REMAIN FOCUSED to THEM. The most common destruction by the influence of the hidden Nafs, Satan and desires (Khawaish) are - TIME WASTE, WRONGLY FOCUSED, INAPPROPRIATE THINKING, EXCESSIVE TALKS, NEGLECTING PRESENT SUFFERINGS and PRIORITIES, FORGETFULNESS, IGNORANCE OF CONSEQUENCES, LAZINESS, GREED PLEASURES & VARIOUS ADDICTIONS.

Similarly our Responsibilities are- THE HEREAFTER, HEALTH, FAMILY, FINANCE, CHATACTER BUILDING OF CHILDREN, BUSINESS, PROFESSION, and RELATIONSHIP. My advice to all is TAKE CARE OF YOUR TIME, YOUR FOCUS AND THOUGHTS should not be exploited by Nafs & Satan and follow CORRECT PRINCIPLES for Hereafter, Health, Profession, Finance, Family and Relationship. World is a very complicated place so be serious about life.

If you want some more guidance or clarification then please read the Article beneath the Heart Chart, I hope the concept of the Heart Chart will be cleared. Try to spread this message to others so that we can live in Peace & Harmony. If we wouldn't educate people about the Secrets of Life and Heart, who else will?

Warm Regards,

Mohsin Ali
